

NIKKOLO ACHILES CALILUNG

SENIOR TECHNICAL SUPPORT SPECIALIST | SHOPIFY & FRONT-END DEVELOPER

Pampanga, Philippines | +63 928-531-8059 | achiecalilung@gmail.com | achilesnikkolo.github.io

PROFESSIONAL SUMMARY

Technical Support professional with 5 years of experience at Okendo, resolving high volumes of customer and technical issues through structured ticket management (HubSpot) and close cross-functional coordination via Slack. Builds on this foundation with hands-on front-end development and Shopify theme customization experience, coding and debugging live e-commerce stores alongside an experienced full-stack developer. Combines steady, detail-driven customer support with practical front-end coding skills (HTML, CSS/SASS, JavaScript). Holds a BS in Information Technology, with a track record of balancing full-time technical support work, freelance development, and academic study without compromising on quality or reliability.

CORE COMPETENCIES

Technical Support & Customer Service: Customer Support & Troubleshooting · Helpdesk Ticket Management (HubSpot) · Issue Escalation & Resolution · Cross-Functional Communication (Slack) · Remote Team Collaboration · Process & Documentation

Web & Shopify Development: Shopify Theme Customization · HTML / HTML5 · CSS3 / SASS · JavaScript · Front-End Debugging & QA

PROFESSIONAL EXPERIENCE

Senior Technical Support Specialist — Okendo (Remote) *2021 – Present*

- Delivered 5 years of consistent, high-quality technical support at Okendo, handling a steady volume of customer inquiries and technical issues through to resolution.
- Managed and tracked customer support tickets end-to-end in HubSpot, prioritizing issues by urgency and ensuring timely, accurate follow-through.
- Coordinated daily with internal teams over Slack to escalate complex technical issues, share context quickly, and keep customers informed throughout resolution.
- Diagnosed and troubleshot technical and platform issues for customers, translating complex problems into clear, easy-to-follow solutions.
- Sustained strong, dependable performance in a senior support role while concurrently completing a university degree, reflecting strong time management and commitment.

Shopify & Front-End Developer Apprentice — Freelance / Family Business *Ongoing*

- Customized, coded, and debugged Shopify theme components and storefront features under the mentorship of a full-stack Shopify and web developer.
- Applied HTML5, CSS3/SASS, and JavaScript to implement design updates, fix bugs, and refine functionality on live, client-facing Shopify stores.
- Translated client and developer requirements into working front-end code, building a practical, project-tested foundation in modern web development.
